SHAH PURA STATE

The Shahpura State was founded by Maharaj Sujan Singhji, the elder son of Maharaj Surajmalji who was the second son of Maharana Amar Singhji I of Udaipur, in Sambat 1688, corresponding with 1630-31 A. D.

It is situated between the 25'-29' North Latitude and 74'-44' East Longitude.

It is bounded on the North East by the British District of Ajmer-Merwara and on three sides by the Udaipur State, except in the North, North-East corner where the border touches that of Kishangarh State. A small detached tract lies about 5 miles to the West of its South-West boundary.

The Shahpura State was under the Political charge of the Resident at Jaipur.

The total area of this State is 705 sq. miles. It consists of two Parganahs *i. e.* Phulia Parganah with an area of 405 sq. miles and the Kachhola Parganah having an area of 300 sq. miles. The former is held under the British Government and the latter under the Udaipur Darbar.

The Khari and the Mansi are the only two rivers which flow in the North from West to East, join near Phulia and fall into the Banas River.

The country is for the most part flat, open and contains much pasture land but little vegetation.

The total population for both the Parganahs of the Shahpura State is 74,219 *i. e.* 54,233 of Phulia Parganah and 19,986 of the Kachhola Parganah, according to the census of 1931.

The average gross revenue of the State for the past five years is Rs. 4,24,742-7-3. The State pays an annual tribute of Rs. 10,000 to the British Government and Rs. 3,200 Chittori to the Udaipur Darbar.

RULER AND HIS FAMILY.

The Ruler Raja Dhiraj Unaid Singhji who is the 12th Ruler on this Gadi is a Sisodia Rajput was born in March 1876 A. D. He married first a daughter of the late Raja Saheb of Khetri (Jaipur) and on her death, a daughter of the late Raja Saheb of Ralaita in Kishangarh State.

Shahpura is also connected by marriage with Jodhpur, Alwar, Kishangarh, Dhruangadhra, Vaukaner, Sant-Rampur, Chhotta-Udepur, Wadhwan, Maynrbhanj, Sikar, Bhadawar, and Bhinga Raj.

The Raja Dhiraj Saheb has got only one son Rajkumar Sudarshan Devji and one grandson Bhanwar Indrajeet Devji.

The nearest relatives of the Raja Dhiraj Sahib are his younger brother Maharaj Sirdar Singhji of Dhanop and sons of the Maharaj Sahib.

Raj Shatrunjai the eldest son of the Maharaj Sahib is the Raja of Bijwa Taluka in U. P. While two other nephews of the Raja Dhiraj Sahib are Kumars Parakramdev and Jeydeo. The former returned in September 1936 while the latter is still in England.

Raj Shatrunjai has also got two sons Bhanwars Lokendra Deo and Narendra Deo.

The Darbar have agreed to the arrangement proposed by the Government of India for the imposition of Excise duty on Matches and Rs. 2386/- have been received by the Darbar on account of their share for the Financial year 1934-35.

Auspicious Event.

The auspicious marriage of Shrimati Younger Bai Saheba of Shahpura

with Yuvaraj saheb Aluxendra Kant singhji of Bhinga, was celebrated on the 14th February 1936 at Shahpura.

Extensive arrangements were started on grand Scale and almost all the Ruling Princes and Chiefs who are related to Shriman Rajadhiraj saheb of Shahpura in some way or the other kindly accepted to grace the occasion with their presence. Therefore the celebrations were expected to be celebrated with great eclat.

Shriman Rajadhiraj saheb was personally looking to the arrangements very enthusiastically. But the heart rending message of the most sorrowful tidings of the most lamentable demise of his late Majesty King George V, cast a deep gloom on his heart and his enthusiasm turned into serious dejection. He intended to postpone the wedding ceremony of Bai saheba, but the religious and astrological insurmountable difficulties stood in the way of the postponment. He had, however, informed his intending guests that the function would be devoid of all amusements and rejoicings and would be restricted to the performance of the most essential ceremonies, and festive functions were curtailed accordingly.

The Raja Saheb and Yuvaraj saheb of Bhinga are endowed with the most pious and virtuous qualities and therefore, the Shahpura-Bhinga alliance has been proved the happiest one.

Death of her Royal Highness Princess Victoria.

Immediately on receipt of telegram from the Resident at Jaipur on 6th December 1936 intimating the sad news of the demise of her Royal Highness Princess Victoria, all offices, Courts and schools were closed for the day and a message of condolence was sent to His Majesty the King Emperor through the Agency.

Death of His Imperial Majesty King George V.

The most lamentable event of the year was the sad demise of His late Majesty King Eeperor George V. Immediately on receipt of telegram dated 21st January 1936 from the Hon'ble the Agent to the Governor General in Rajputana, of the extremely painful news, all offices, courts schools, markets and shops were closed and all business, amusements including ringing of state bells and playing of daily naqqar Khana were suspended for three days and 101 guns were fired and flag half masted in token of respect to His late Lamented Majesty.

The Rajadhiraj Saheb wired to the Agent to the Governor General in Rajputana stating that the calamity was too profound to admit of full expression of feelings of grief felt by him and his subjects and requesting to A. G. G. to convey his deepest sympathy and respectful condolence to the grieved Royal family.

On 22nd January in the afternoon, the Rajadhiraj saheb with his nobles, officials and the Public, both Hindus and Muslims, offered prayer for the peace of the Mighty departed soul.

Accession of his Majesty King Edward VIII.

On the 26th January 1936, the Rajadhiraj saheb held a public Darbar wherein the proclamation about the accession to the Throne of his most Gracious Majesty King-Emperor Edward the Eighth and the declaration made by His Majesty were read and 101 guns were fired in honour of the succession of His Most Gracious Majesty King-Emperor Edward VIII.

Funeral of His late lamented Majesty King George V.

On 28th of January the day fixed for the funeral of His late Majesty again general holiday was observed and markets and shops were closed and all business was suspended and ringing of bells and playing of Naqqar-khana stopped. Both Hindus and Mohammedans offered prayers in their respective places of worship, 70 guns were fired—the last one having been fired at sun set.

The Radhiraj saheb sanctioned a charity of Rs. 100/- which were distributed to the poor and the orphans in respect of the day.

CHAPTER II.

Administration of land.

Revenue system :—The state comprises of two Parganahs viz. Phulia and Kachhola which are divided into the following Tehsils:—

Phulia (1) Shahpura.

(2) Phulia.

(3) Arwar.

Kachhola -(1) Kachhola.

(2) Ulela.

(3) Redwas.

Each Tehsil is under the charge of a Tehsildar who in Pargana Phulia is directly subordinate to the Mantri Mal (Revenue-Minister) and in Parganah Kachhola to the Kamdar of Kachhola who acts under the direction of the Mantri Mal.

Personal.—Chaudhri Mansa Ram retired Tehsildar of Ajmer Commission, was Mantri Mal during the year.

Assesments :—The system of variable assessment introduced in the State some years ago is in force.

Area under cultivation :—The total area cultivated during the year was 77690 bighas as against 77,244 bighas in the last year in the Phulia Parganah.

Yield of crops :—The monsoon started early during the year with good prospects, but the breaks in rains from 3/7/36 to 23/7/36 and 25/7/36 to 16/8/36 retarded the growth of grass on common grazing lands as well as in the Birs. The standing crops were also slightly damaged due to these breaks in rains. But the rains from 8th to 16th September 1936 greatly benefitted the crops on dry land as well as the fodder. Owing to scarcity of rains this year in the neighbouring states, the grass in the Birs of this State fetched a good price.

The prices of food grains are steady this year compared to those of the last year.

The Rajadhiraj saheb who has always taken keen interest in the welfare of his subjects, particularly of agriculturists, has mitigated the suffering of the cultivators to a great extent they suffered by depression in trade and bad harvest by continuing to the following remissions in the rents as in previous years.

1. Chahi rate..... -/6/- per rupee.
2. Talabi..... -/4/- per rupee.
3. Dry..... -/3/- per rupee.

Boundary dispute.—The boundry dispute between Rampura (Shahpura) and Shyampura (Kishangarh) was amicably settled by the representatives of both the states in presence of Lt- R.K. M. Saker deputed by the Government of India as a special boundry settlement officer in March this year and the pillars erected on the line surveyed by the Government surveyor at that time. The Shahpura representative had, however, his doubts about the accuracy of the line which he had expressed before the special Boundary settlement officer and soon on his return to Shahpura the G. T. sheets of 1871-74 and 1931-34 and a copy of the map of the new boundary line were, at this request, sent to Lucknow to Rai Saheb Pandit Ramchandrajji Engineer for verification of the new line and it was found that the new boundary line was inaccurate and the doubts of the Shahpura representative were not groundless. The Resident at Jaipur has been requested to get the new line checked and verified.

The Special Boundry Settlement officer has also written his decision about the position of the pillars to be erected on Ratanpura (Shahpura) and Alamoo (Kishangarh) according to the amicable settlement arrived at in 1926 and the pillars would be erected accordingly shortly. The Alamoo (Kishangarh) people have started encroachment on the Chandna village (Shahpura) boundary and have removed some of the boundary pillars, during the year.

Customs Department.

Thakur Mohan Singh continued to remain incharge of the customs Department. For income and expenditure of this Department *vide* appendix XXII.

The Excise Department.

The Abkari Department was worked on duty system by Messrs. Rustom ji Fardon ji contractors during the year under report under the supervision of the State Excise Superintendent Lala Kanhiyalal.

Court of Wards.

The Jagirs of Nasarda, Sarans, Dhokliya, Taswaria and Fatehpura remained under the management. The management over Narainpura was withdrawn on 13th July 1936.

CHAPTER III.

Protection.

The Codes and Acts shown in Appendix II are in force in the State.

There is no regular Military Force. The armed police Sowars and Cavalry and Infantry remained in charge of Thakur Goverdhan Singh for the most part of the year in the absence of Lt. Extradition Engagements.

The exchange of accused persons between this state and British District of Ajmer-Merwara as well as Mewar State were conducted smoothly during the year under report on the basis of the *Prima Facie* evidence.

The Kotah state has also surrendered some stolen bullocks to this state in response to the *Prima facie* evidence sent through the Resident at Jaipur.

CHAPTER IV.

Production and Distribution.

The rainfall during the year ending the 31st of October 1936 was 23 inches 97 cents against 18 inches 74 cents during last year—(Vide Appendix XVII.)

The average out-turn of the Kharif crops was as follows :—

Name of grain.	Average out-turn of 1935.	Expected out-turn of 1936.
Maize ...	10 annas in the rupee	12 annas in the rupee.
Jawar ...	8 " "	8 " "
Til ...	12 " "	12 " "
Urad ...	10 " "	10 " "
Moong ...	10 " "	10 " "

The average out-turn of Rabi crops was as under :—

Name of grain.	Average out-turn of the year 1935.	Out-turn expected in the year 1936.
Wheat ...	10 annas in the rupee.	12 annas in the rupee.
Barley ...	12 " "	12 " "
Gram ...	10 " "	10 " "

The basic occupation of the majority of the population in the State is agriculture or labour connected with agriculture. Only 20 per cent are employed in industries of minor importance. The rate of wages varied from 2 annas to 8 annas per diem.

For prices of food grain see Appendices XVIII and XVIII (a).

Forests.

Properly speaking there are no forest reserves in this State. A considerable area is reserved in several villages where grass and wood are reserved.

The wood in the Birs is fit for fuel only and is not available in such large quantities as might be kept in Stock or exported.

Trade and Manufacture.

The chief exports are cotton and ghee. Wheat is also exported in small quantities occasionally.

The chief imports were piece-goods, sugar, rice and tobacco.

There is one combined Cotton Press and Ginning Factory belonging to the State under the Supervision of Thakur Mohan Singh, the Manager of the factory on behalf of the State. During the year 6,527 bales were pressed.

Public Works Department.

Mehta Madan Singh remained in charge of the ordinary building department. The Umaid Sagar and Nahar Sagar were repaired under the supervision of Mehta Madan Singh.

During the year Rs. 1,765-10-6 and Rs. 1,428-10-6 were spent on Umaid Sagar and Nahar Sagar respectively.

For details of expenditure see Appendix XIX.

Treasure Trove.

No Treasure Trove was found in the State during the year under report.

Post Office.

The State maintains a postal system of its own. Official papers on the State service are carried free while private letters are sent to their destination throughout the State on one anna stamp.

There is one Government combined Post and Telegraph Office at Shahpura.

CHAPTER V.

Finance.

The firm of Seth Sujan Mal Moolchand of Ajmer carries on the Treasury work under the supervision of Treasury and Accounts Officer Babu Sarup Narain.

The total receipts and expenditure for the year are shown in Appendix XXII.

The amount of tribute due to Government was paid on due date.

CHAPTER VI.

Medical and Public Health Department.

Personnel.—The Departmental work is conducted under the guidance of Dr. Kushal Singh, L.M.P., (C.P.), L.T.M., (Cal.).

Vital Statistics.—The population of the Shahpura State on which this report is based is 54,233 (of Phulia Pargana) only.

(a) The total number of births registered this year is 1,788, *i.e.* 34.81 per thousand while last year it was 1,401 *i.e.*, 25.83 per thousand.

(b) The total number of deaths reported is 998, *i.e.*, 18.42 per thousand as compared to 848 *i.e.*, 11.95 per thousand last year.

Vaccination.—The total number of children vaccinated during the year is 1,976 as compared to 1,758 of the last year. The vaccination work is conducted by two vaccinators who go round the city and through the rural areas. The work is regularly inspected by the Medical Officer-incharge.

Attendance of Patients.—(a) *Out-door*:—The total number of out-door patients treated during the year is 32,657 as compared to the last year's number 32,141. Out of these 24,296 have been treated at the State Hospital as compared with last year's number 23,814. The number of patients treated through the village dispensaries and through village school masters is 8,361.

The system of rendering medical aid in rural areas in addition to the small dispensaries through school-masters which has been in practice for the last 6 years is giving satisfaction to the people and specially to the agricultural class in the villages, has proved of immense benefit and saved the trouble, time and the expenses of coming over to the Central Hospital during the Agricultural season when the diseases are more rampant. These school-masters and the rural dispensaries have been regularly supplied with medicines from the Central Hospital and regular training in elementary medicine is imparted to all the school-masters every year in the vacations.

(b) *Indoor Patients.*—The number of indoor patients is 113 compared to the last year's number 106.

Surgical Operations.—The total number of operations both major and minor including intravenous injections performed during the year is 1,155 as compared to last year's number 1,115.

Eye Section.—The total number of eye-cases treated during the year is 6,846 compared to 7,524 treated during the last year.

Epidemics and Chief Diseases:—(a) Malaria.—Malaria was not in severe epidemic form this year in the city proper as well as in the rural areas. The method of intravenous injection of quinine proved more successful in eradicating the most virulent form than the oral administration of quinine.

This year too although there was no severe epidemic Shriman Raja Dhiraj Sahib very kindly granted special leave to the village school masters for administering quinine to the people in rural areas as a prophylactic measure impressing upon them the advantage of prophylactic Quinine in malarial season.

(b) A few cases of Pneumonia were successfully treated through appropriate and timely help.

(c) A number of cases of Tuberculosis of the lungs were relieved and advised sanatorium treatment.

(d) There was not such an epidemic of smallpox in the city as well as in rural area as last year. A few cases of chicken pox and mump and measles were treated.

(e) Cases of Filaria Melenences Infections were successfully treated surgically and medically.

(f) A few cases of typhoid were treated successfully which seem to foster belief in people that medicine relieves the patient and the old belief that the patients should be left to their own fate is slowly dying out.

Medicolegal cases.—From courts numbering 116 were examined.

Poison Cases.—5 Cases of snake bites, 17 of scorpion sting were successfully treated.

Bacteriological work.—The bacteriological work has been done on quite a good scale which helps a lot in diagnosis and treatment of many diseases such as Pthisis, Dysentry, Malaria, Gonorrhoea, Diabetes and Pneumonia.

Muir Maternity Department.—The Muir Maternity Department is doing good work and Hospital Nurses and *Duis* have steadily acquired popularity.

Labour Cases.—There were 16 labour cases out of which 3 miscarriage, 8 normal and 5 abnormal. They were delivered by means of obstetric operations in the Hospital.

Laxmi Bai Raksha Fund.—This fund was started by the present Rani Saheba Rathorji in commemoration of the sad demise of Bai Saheba Laxmi Kunvarji. It has done immense service to the poor and needy infants and their mothers who are supplied free of cost with food, clothing medicine and other necessities from this fund.

Boarding Houses.—The students of the Karamsot, Sudarshan and Brahma Boarding Houses enjoyed good health during the year under report. The Medical Officer Incharge regularly supervises their diet and other sanitary arrangements and conducts systematic examination of their health every month.

Jail.—The inmates of the jail enjoyed good health during the year. The sanitary arrangements, diet and the health of the inmates are regularly looked after by the Medical Officer.

Public Health and Sanitation.—The sanitation of the city and suburbs has been in a very satisfactory condition throughout the year under the supervision of the Police Department in consultation with the Medical Officer.

The Ayurvedic Umaid Aushdhalaya.—The number of patients treated at the Ayurvedic Umaid Aushdhalaya is 16,324 compared to 14902 during last year while the number of patients treated by the Aushdhalaya at Kachhola is 3,516 compared to 3,105 during the last year.

EDUCATION DEPARTMENT.

Darbar High School.

General.—The High School section was introduced six years back, and there has been steady progress in school work and activities since then. The year under report, however, saw certain vital changes in the Staff, the Head Master's portfolio has again been given over to an experienced person, who had the honour to occupy the same position for three years before.

Results.—4 boys came out successful out of 7 sent up for High School Examination.

Staff.—The School was fairly staffed, there being four graduates (two trained), 2 Inter Arts, 1 Inter Science, 3 Matriculates, one Shastri and one drawing master.

The staff holds its meeting once a fortnight, and to acquaint teachers with the latest developments in educational theory and practice, papers are read and discussions held over Methods of teaching, Punishment, Home-work, Parental co-operation and other allied topics. Model lessons are given by the Head Master, whenever necessary.

Laboratory.—Science is now a permanently recognised subject and the Science Laboratory is fully equipped with apparatus as laid down by the Rajputana Board of High School and Intermediate Education, and now it can boast of a Magic Lantern. A recurring annual grant of Rs. 150/- as laid down by the Board will meet the day to day needs of the Laboratory; and will ensure the working of the Lantern in full swing.

Library and Reading Room.—The library is fairly stocked with books on education, reference and other subjects taught in schools. In order to make a full use of the library, it has been divided into 5 sections, each located in different room. One section contains books on education and reference (meant specially for the members of the staff), another on Hindi and Sanskrit while the rest three on English, History and Geography, graded according to difficulty for X and IX, VIII and VII, VI and V. There is a special section for children, containing sets of pictures with exercises printed on them.

Books are issued twice a week. One important feature of the system is that each student has a page to himself. This enables the authorities to see at a glance how many and what kind of books a student has read during the session.

Papers and journals were subscribed for the reading room as usual. The following papers and Magazines were added.—The Modern Review, the Children's News, the Bal Sakha, the Balak, the Bal Sandesh and the Shisu.

Social.—It is now fully recognised that the sole aim of education should be to turn out useful citizens fully equipped to move in society. To meet this demand, various activities are organised by schools. We shall now describe the more important of them as run by this institution.

The School Sabha.—It is an organisation based more or less on Prefect system. The Sabha is, as it were, the Cabinet of the School Parliament. It consists of the following 8 members:—The School Captain, the First boy in studies, the Secretary of the Debating Society, four representatives, one from each of the four senior classes and one member representing Scouting. Sufficient care is taken to make this body as representative as possible of the various activities and elements present in the institution. Members are usually elected but they have to be approved of by members of the Staff. This year the coveted post of the Chairman of the Sabha is held by Udaibhan Singh of class X.

As regards the activities of the Sabha, it holds its daily sittings in one (usually the second) of the two intervals of recess, and any student who has anything to complain of or wish for, appears before it. Record is kept of the cases tried and judgment delivered, and read to the Head Master once a week.

Debating Society.—This is another of the useful activities. Its meetings are held every week on Tuesdays. One week they have debates on some interesting topics *e.g.* 'Peace hath her glories more renowned than war', and so on; in the second week they have an inspiring address delivered by prominent persons, local or from outside. Pandit Dhurendraji Shahtri was pleased to address us on "WILL POWER and what it can achieve 'महत्वा कांक्षा.' Pandit Ramesh Chandra Shastri—Sanskrit teacher of the Darbar High School spoke on "GURUKUL and their potentialities."

In the third week students read papers on some interesting subject—"student life, what profession you intend to take up in life" and in the last they have recitation of poems, anecdotes, dialogues etc. In short efforts are made to have as varied a programme each week as possible.

Organized Games and Mass Drill.—The importance of Games is now well-high established, consequently games are compulsory here. The following games are played:—Football, Volley ball, Kabaddi, Lathi, Dodge ball and Hockey (introduced this year).

To counteract the evil effects of prolonged sitting during school hours, and to develop physique, we have regular drill under supervision of teachers. Classes have their several drill on week days; once a week they assemble for Mass Drill. This creates and promotes healthy rivalry between the classes.

Scouting.—This useful movement, it seems, has degenerated here into a mere 'Volunteer Corps.' Scouts are seen at work only during fairs and other local functions. Patrol system—the very life blood of scouting is non-existent. Luckily, however, the attention of the authorities has been drawn to this state of affairs and now scouting again bids fair to be one of the most useful activities of the institution.

Havan and Sandhya.—Religious instruction is in-charge of a learned Shastri and lessons are given regularly on Vedic Dharma. Weekly Havan and Sandhya have been lately started to bring home to the students the importance of prayers.

Prize Distribution.—The Annual Prize Distribution took place on 11th May 1936. Prizes both for studies and sports were given away by Shriman Rajkumar Saheb.

Vernacular Middle School.

The Highest Examination for which the boys are prepared in the V. M. School is the Vernacular Final Examination of the United Provinces.

During the year under report 3 boys came (2 in the 2nd division and one in the third) out successful out of 5. The results of other classes were also quite satisfactory.

Primary Education is imparted in the City Branch School.

There are 11 Primary Schools in the District namely Dhikola, Kanechan Kalan, Kadi sehna, Bachkhera, Arur, Phulia Kalan, Dohria, Rehr, Kothian, Taswaria and Amli Kalan. One private aided school exists at Dhanop and is maintained by shriman Maharaj Sahib. The number of boys on roll is 19 and the daily average attendance is 14. 17.

There is also a Girl's School at the capital having on its roll 165 girls.

The Education in all the schools is free.

Games.—Games of late have been re-organised on the model of "All Play Movement". The programme is chalked out in such a manner that every student plays daily at least for 40 minutes. The games include, Football, Volley Ball, Tug of war, Lathi and other lighter games. The annual Prizes were distributed on May 12th, 1936.

In order to encourage the learning of Sanhita and Karamkand and Sanskars (Vedic and Puranic) and Dharamshastras, the Goutam Karam Kand Pathshala has been established. During the year under report 18 boys were examined and 14 boys got through. The cash prizes were distributed on the occasion of Raksha Bandhan to the successful candidates.

With the boys of the above Pathshala, other gentlemen of the Brahman community were also examined in Sanhita and Sanskars, and cash prizes were also given to them. The result of this encouragement is that the tendency of learning Vedas is increasing day by day among the Brahmans.

BOARDING HOUSES.

Three Boarding Houses are being maintained by the State namely (1) The Karamsot Boarding House (2) The Sudarshan Boarding House and (3) The Brahma Boarding House.

The Karamsot Boarding House named after the illustrious mother of the late Raja Dhiraj Saheb has on its roll 10 boarders and the Sudarshan Boarding House named after Rajkumar Sudarshan Devji maintained 11 boarders.

The Brahma Boarding House has 10 boarders on its roll. The boys are prepared in this Boarding House for the Sanskrit Prathama and Madhyama Examinations of the Queen's Sanskrit College, Benares. During the year under report 2 boys were sent up for Chaturth Khand of Madhyama Examination and 1 out of them got through. 2 were sent up for Dvitiya Khand and 1 out of them came out successful and 1 was sent for Pratham Khand and he passed and one was sent for Pratham and he failed.

THE LAWRENCE STATE LIBRARY.

The Library has a good Collection of books, reports and other Publications of interest in various languages.
